EDUCATION

Mahindra University

B.Tech Computer Science

Obul Reddy College

CBSE – Class XII

Aug 2023 - Present

Current GPA: 9.4

June 2021 – Feb 2023

COURSEWORK

Courses: Object-Oriented Programming, Data Structures & Algorithms, Database Management, Machine Learning, Software Engineering, Social Computing, Quantum Computing, Gen Ai and LLM.

Awards: Merit Scholarship from Mahindra University for ranking in the top 10% of the batch in the years 2023, 2024 and 2025.

SKILLS

Programming: C, C++, Python, Java, JavaScript, HTML, CSS

Tools: Git/GitHub, VS Code

Database: MySQL, PostgreSQL

Libraries: Pandas, NumPy, Matplotlib, PyTorch, Seaborn, Scikit-learn

Spoken Languages: English, Hindi, Telugu, French(Basic Level)

PROJECTS

Interactive Voice Assistant | *Python,SpeechRecognition,gTTS/pyttsx3,NLP,APIs*

Dec 2024

- Built a voice assistant supporting command execution (search, messaging, task automation) using Speech Recognition and gTTS for real-time interaction.
- Implemented speech recognition pipelines to process user commands and generate conversational responses.
- Integrated NLP and audio processing modules to enable seamless hands-free communication.

Predictive Maintenance of Turbofan Engine | *python,NumPy,Pandas,Random Forest,XGBoost*

Mar 2025

- Developed a predictive maintenance system using CMAPSS Dataset to estimate Remaining Useful Life (RUL) and classify all engine states with an accuracy of 87 percent.
- Implemented ensemble learning techniques including Random Forest and XGBoost.

Racism and Hate Speech Detector | *Python,Pytorch,Hugging Face Transformers,BERT,LSTM*

Oct 2025

- Developed a Racism and Hate speech detection system using NLP.
- Implemented NLP pipeline with tokenization and deep learning models including LSTM and BERT using Hugging Face Transformers.
- Achieved 95 percent classification accuracy on test dataset using BERT fine-tuning.

Humor-Driven Team success Predictor | *Python,Logistic Regression,Feature Engineering*

Nov 2025

- Developed a model to predict team project success using humor detection and peer evaluation.
- Transformed social interaction metrics and peer evaluation data into structured features for machine learning prediction.
- Achieved an accuracy of 98 percent.

INTERESTS/EXTRA-CURRICULAR ACTIVITIES

Interests: Chess, Basketball, Anime, Coding, Video Games

Secured Second Place in an Inter-School Basketball Tournament.

Volunteer: Social service initiatives at Mahindra University

Actively volunteered in multiple social service initiatives and university events at Mahindra University.
